

# Pre-Event Medical Screening Checklist

Use this checklist to assist in identifying potentially communicable diseases before event participation.

The intent of this checklist is to review with each youth and adult participant their current health status, both before departure and upon arrival at the event. Anyone entering a camp or event will be screened using this checklist.

**Circle your answer for each question:**

Yes or No Have you been in contact with anyone who has COVID-19 or is otherwise sick?

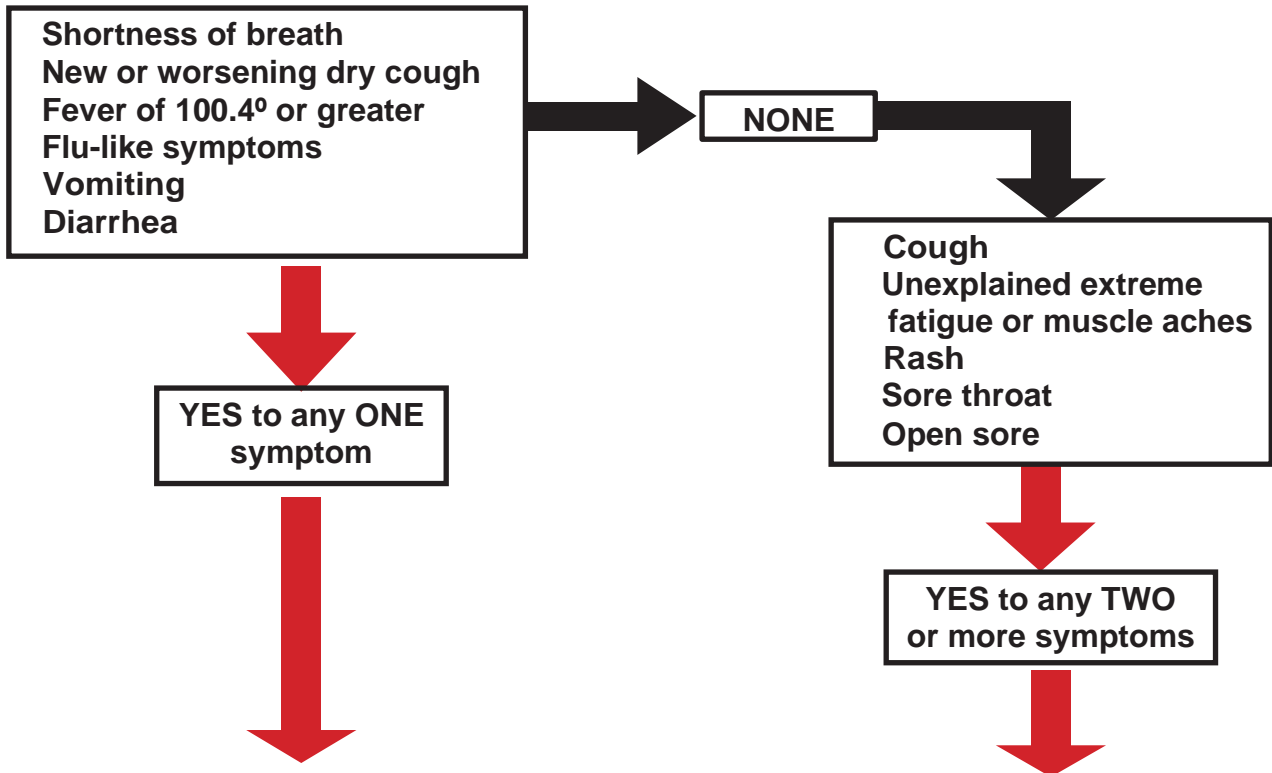

Yes or No Have you or anyone you have been in close contact with traveled on a cruise ship, internationally, or to an area with a known communicable disease outbreak in the last 14 days?

***If the answer is “yes” to either of these questions, the participant must stay home.***

Yes or No Are you in a higher-risk category as defined by the CDC guidelines?

If the answer is “yes” to this question, we recommend that you stay home. Should you choose to participate, you must have approval from your healthcare provider and then proceed to the symptom decision tree below.

***If the above answers are “no,” proceed to this symptom decision tree.***

**THE PARTICIPANT MUST STAY HOME**  
These symptoms are associated with communicable diseases and the participant **MUST** stay home until medically cleared by their health care provider.

I have read and understand the reverse side: “COVID-19 “At-Risk” Camp/Activity Participant Statement:”

Participant Name: \_\_\_\_\_ if under 18, Parent Signature \_\_\_\_\_

Unit Type and # \_\_\_\_\_ City: \_\_\_\_\_ Date Submitted: \_\_\_\_\_

## COVID-19 "At-Risk" Camp/Activity Participant Statement

Your safety and the safety of all our members, volunteers, and employees is the top priority for the Buffalo Trace Council. While there is still much uncertainty regarding COVID 19, we are monitoring the information provided by health experts and government agencies to help keep safe those who choose to come to participate in Scouting activities.

First, our council is coordinating with state and local health departments, including the Vanderburgh and Pike County Health Departments, to ensure we are informed of and comply with their guidance to mitigate the risks of COVID-19 being contracted at Old Ben Scout Reservation and at the Eykamp Scout Center.

Our mitigation plan includes:

- Pre-attendance education.
- Health screening conducted by your unit prior to travel to our facility, including a temperature check.
- Health screening upon your arrival at camp which will also include a temperature check.  
Note: should anyone in the unit not pass the arrival screening, the entire unit will not be allowed to enter camp.
- Hygiene reminders while at camp.
- Extra handwashing /sanitizer stations throughout camp.
- Dedicated persons from each group will be necessary to clean and disinfect high touch surfaces as well as minimize use of any shared program or kitchen equipment.
- An emergency response plan that includes an isolation and quarantine protocol should a person at our facility develops symptoms of COVID-19 or other communicable disease.

These precautions are important, but these efforts cannot eliminate the potential for exposure to COVID-19 or any other illness while at camp or on Scouting activities. Experts have said that people with COVID-19 may show no signs or symptoms of illness, but can still spread the virus, and people may be contagious before their symptoms occur. The fact is that someone with COVID-19 may pass the required health screenings and be allowed into camp.

We also know the very nature of camp makes social distancing difficult in many situations and impossible in others.

Information from the Centers for Disease Control and Prevention (CDC) states that older adults and people of any age who have serious underlying medical conditions are at higher risk for severe illness from COVID-19. *If you are in this group, please ensure you have approval from your health care provider prior to attending camp.*

Every volunteer, staff member, and Scouting family must evaluate their unique circumstances and make an informed decision before attending an activity. We hope this information will be helpful as you make that choice.
